

Martin Camacho *Software Engineer*

✉ camachom@fastmail.com 📍 New York, NY 🌐 github.com/camachom

🌐 linkedin.com/in/camachomartin 🔗 https://me.vs.computer

Software engineer with 8+ years of startup experience and a strong record of owning systems end-to-end. Focused on backend and product-facing work, with experience across Ruby on Rails, React, Node, and SQL. Comfortable working with infrastructure when needed (e.g., Terraform and AWS)

📁 Professional Experience

Software Engineer, *BuildZoom* 🔗

04/2021 - 12/2025

Remote

- Owned and maintained the checkout system, ensuring high uptime, scalability, and reliable integration with third-party services
- Reduced AWS RDS snapshot storage costs by ~20%
- Contributed across Rails backend, APIs, and infrastructure to support core business workflows

Teacher Assistant, *CCSF* 🔗

08/2022 - 12/2022

San Francisco

- Assisted Professor Maximilian Luttrell with CS110B: Programming Fundamentals (C++)
- Supported students through code reviews, debugging sessions, and conceptual explanations

Software Engineer, *Peerspace* 🔗

08/2017 - 04/2020

San Francisco

- Improved Google PageSpeed scores by ~10% through performance optimizations
- Took ownership of SEO initiatives, including systems to auto-generate pages at scale
- Ran A/B tests to evaluate and iterate on design and conversion improvements

🎓 Education

Math Certification, *CCSF*

2018 - 2020

Completed all undergraduate math courses offered with a 4.0 GPA

Web Development Bootcamp, *App Academy*

2016 - 2016

Bachelors of Science in Communication, *Florida International University*

2008 - 2013

🧠 Skills

Ruby

Rails

JavaScript

React

Node

MySQL
