

Martin Camacho *Software Engineer*

✉ camachom@fastmail.com 📍 New York, NY 🌐 github.com/camachom

🌐 linkedin.com/in/camachomartin 🔗 https://me.vs.computer

Versatile software engineer with 8+ years of startup experience and a strong record of owning critical application systems end-to-end. Focused on backend and product-facing work across Ruby on Rails, React, Node, and SQL. Comfortable working with infrastructure when needed (e.g., Terraform and AWS), without positioning as a dedicated infra specialist.

📁 Professional Experience

Software Engineer, *BuildZoom (YC W13)* 🌐

04/2021 - 12/2025

New York

- Owned and maintained the checkout system, ensuring high uptime, scalability, and reliable integration with third-party services
- Reduced AWS RDS snapshot storage costs by ~20%
- Contributed across Rails backend, APIs, and infrastructure to support core business workflows
- Role concluded following company acquisition and associated post-acquisition reductions

Teacher Assistant, *CCSF* 🌐

08/2022 - 12/2022

San Francisco

- Assisted Professor Maximilian Luttrell with CS110B: Programming Fundamentals (C++)
- Supported students through code reviews, debugging sessions, and conceptual explanations

Software Engineer, *Peerspace* 🌐

08/2017 - 04/2020

San Francisco

- Improved Google PageSpeed scores by ~10% through performance optimizations
- Took ownership of SEO initiatives, including systems to auto-generate pages at scale and A/B testing
